Collaborating towards Success
Mission Statement

Little Flower Children and Family Services of New York, rooted in Catholic tradition and guided by the lives of Saint Therese Lisieux and Saint Peter Claver, transforms caring into action to deliver services, programs and direction to improve the lives of children in crisis, families and the developmentally disabled.
Message from the President of Board of Directors and Executive Director

Little Flower Children and Family Services of New York was founded out of the devotion and perseverance of Msgr. Bernard Quinn, but if you asked him, he would probably tell you that his collaborators on the endeavor were St. Therese Lisieux and St. Peter Claver – whose lives inspired him daily. Every time we feel the enormous responsibility and challenge we face in protecting and caring for the vulnerable children, families and developmentally disabled adults in our care, we remember where we came from and how we came about and realize that we’re not in this alone. We work with dedicated staff that embrace and carry out our mission every day. We are surrounded by board members who are committed to maintaining the highest standards and helping us do our jobs. It is impossible to adequately thank them all for their commitment and hard work.

Little Flower has always put the needs of the children, families and developmentally disabled adults we serve above all else, which became urgent during and after Hurricane Sandy. Our residential staff ensured that the residents were secure and able to cope with the change in their normal routine. In Wading River, with the collaboration of many departments on the campus, we were able to provide shelter for residents and staff from another agency who had been displaced as a result of Sandy. Our Brooklyn office was open every day during the storm and the Queens office opened the Monday after.

Hurricane Sandy brought out the best in our agency personnel and is a clear example of the importance of collaboration and cooperation among all levels of staff and volunteers. This report highlights other collaborative efforts throughout the agency, including the partnership between Medical and Mental Health departments, the relationship between foster parents and staff, the cooperation between our Campus Café and the Garden Club and the partnership with Information Technology and the entire agency.

Utilizing all resources available to us, Little Flower continues to meet the ever increasing and changing demands for those in our care. We opened two new facilities to serve the members of the developmentally disabled community in Queens and Wading River. The Medical and Mental Health departments have demonstrated excellence in the care and services they provide to foster children and the Bridges to Health program continues to help children rise above their harsh realities to create a better and brighter future.

Looking towards the future, we have a lot to be excited about at Little Flower. Due to a growing developmentally disabled population, we are pleased to announce the expected opening of the new Day Habilitation program in March 2014.

But, we could not achieve all of this without the extraordinary and generous support of our faithful donors! It is with your help that Little Flower can continue to assist many children, families and developmentally disabled adults lead the productive, healthy and happy lives everyone deserves. Thank you!

J. Keith Fell  
President  
Board of Directors

Grace G. Lo Grande  
Executive Director

Pulse of Little Flower

Little Flower strives to deliver innovative, quality programs and services to the children, families and developmentally disabled adults we serve. Our goal is to establish permanency for the children in our care by returning them to their family when possible or placing them with a new forever family through adoption; provide support and education to our foster parents so they can offer safe, nurturing and loving homes and to secure safe, long-term living arrangements for our developmentally disabled adults to ensure the best quality of life possible.

Over the last two years, Little Flower:

- Served **1,400** children in foster homes
- Cared for **195** youth in the Residential Treatment Center and Respite
- Served **65** children in the Multi-Sytemic Therapy program
- Served **275** children through Bridges to Health
- Cared for **68** developmentally disabled adults in residence
- Cared for **260** developmentally disabled adults in family care

From July 2011 to June 2013:

- **178** children were adopted into forever families
- **97** young adults were discharged to self
- **347** children returned to their own families

Little Flower’s Virtual Face Lift

In early 2013, Little Flower embarked on a new challenge—the revamping of our website! Thanks to the effort of all departments, we have a new look and feel on the web.

The site has undergone a thorough makeover, from top to bottom—new colors, new layout and new sections! It now features streamlined menus, simple navigation and more information, literally at your fingertips.

You will immediately notice:

- A brand new and redesigned Homepage, which features upcoming events, highlights of recent activities and News, as well as a twitter feed direct from @LittleFlowerNY
- You now have the ability to search for content using the search box in the top right corner
- Now it’s even easier to connect with Little Flower through the various social media links and the contact section

The website is a prime example of the importance of teamwork and collaboration and how Little Flower can accomplish anything when we all work together toward a common goal.
Little Flower continuously adapts to meet the demands and needs of those in our care. Recently in an effort to accommodate the growing population of developmentally disabled adults, we opened two new facilities, an eight-bed residence in Laurelton, Queens and the Bishops Cottage on our Wading River campus.

Eight gentlemen moved into the Laurelton Individual Residential Alternative (IRA) in October 2011. It is always challenging to get eight different personalities to mesh and become a family but soon everyone settled into a normal routine. Since opening there have been heartaches, loss, and changes but also much joy; the residents proved their resilience and handled everything with a sense of togetherness. The staff has worked hard to make the facility a home and as far as we can tell they have succeeded.

Like any other family, they enjoy vacations together and exploring the community, whether it is shopping, sporting events, or cultural outings. The residents share with the staff what’s going on in their lives and provide suggestions on what staff needs to do to make their lives better.

A fairly new addition to the Wading River campus is the Bishops IRA, which was developed to afford some individuals currently living in the McSharry Intermediate Care Facility's (ICF) a home that is not as restrictive.

Bishops welcomed six individuals, five men and one female, ranging from 43 to 54 years of age. Two of the individuals are in wheelchairs and the other four are ambulatory and they range from mild to profound intellectually delayed, suffering from autism and anxiety.

The goal and objectives of Bishops is to offer a home that will enable these individuals to live as independently as possible. Supervision is provided by trained staff to ensure that programmed activities of the individuals, as well as all health, social, nutritional, and psychological needs are being evaluated and achieved in a home-like atmosphere. When needed, staff will provide ongoing training to the individuals, including topics such as budgeting, meal preparation, medication administration and keeping their home clean.

Bishops has the added benefit of helping youth on the campus. Moving six individuals from McSharry to Bishops created six openings in McSharry, which was filled by six young adults who aged out of the RTC, allowing for a continuum of care in a safe a familiar environment.
On January 25, 2013, Little Flower was recognized by the New York City Administration for Children Services and assistant commissioner Dr. Angel Mendoza, MD, for outstanding performance in an assessment of the provision of medical and mental health services for children in foster care.

Thanks to the leadership of Grace Calderone, assistant executive director for Medical and Mental Health Services and the collaboration between the physicians, clinicians and staff of the Mental Health Department and Nkechi Osuji, director of nursing and all of the nurses, physicians and staff of the Medical Department, Little Flower improved our practices. Teamwork between Paula Wolf, director of information technology, Kate von der Heyden, assistant executive director of information systems and technology and the rest of the IT staff established an effective tracking system to ease work-flow and communication between departments. The result is a more integrated care plan for children in foster care.

**RTC and IT Streamline Infirmary Functionality**

Little Flower’s Residential Treatment Center (RTC) offers a variety of programs and services to the youth living there. One important aspect of the RTC is an on-site infirmary that provides medical services and referrals. A registered nurse is available seven days a week and at least one nursing assistant is present during hours of operation. Recently with the cooperation of the Information Technology (IT) department we embarked on a project to streamline the overall function of the Infirmary.

The collaboration resulted in a new, modern system to assist the Infirmary in providing services. Now there is a central calendar where all appointments are scheduled with visual cues indicating the status of appointments, and whether or not follow up is needed. The system sends automatic reminder emails, change of appointment/cancellation emails and develops a status list for use by the therapeutic team. In addition, staff can now run reports from one central system showing all necessary information saving valuable time that staff can now devote to the residents.

The development of this system has improved the quality of care for the residents at the RTC immensely. Now there’s an efficient way to track and follow each child’s medical care in a matter of seconds, allowing the nursing staff more time to focus on caring for the RTC residents and ensuring they are receiving the best treatment possible!
Medical and Mental Health Departments Collaborate on a Wholistic Approach

“Mens sana in corpore sano” translates from Latin as “A sound mind in a healthy body.” Mind and body are connected as are the Medical and Mental Health (MH) Departments at Little Flower; both departments work closely to meet the shared goals of casework staff, the Adoption Department, B2H, Home-finding/Intake, and the children and families we serve. Working as a team improves foster children’s stability, enhances well-being and expedites permanency for children in foster care by linking together best practice models.

Medical and MH collaboration includes:

- Monitoring the medical needs of children on psychotropic medication as mandated by ACS including requirements of bi-annual labs, physicals, blood levels and other medical monitoring in order for children to be prescribed medication.
- Providing training and education for children, foster parents, and casework staff, including, but not limited to diversity training, reproductive health, nutrition, psychosocial assessment, and preventive health education.
- Immediately completing incident reports any time a child is brought to an ER or child abuse is reported; this real-time shared information allows for immediate intervention and follow-up by appropriate parties.
- Conducting Intake and Annual Screenings identifies need for Early Intervention, therapy, psychological and psychiatric evaluations, specialists, and other referrals.
- Supporting permanency goals by providing services and documents in the form of evaluations for higher level of care, supportive housing, documents needed to transition out of foster care, referrals to community resources/health homes, and ensuring appropriate services for continuity of care as well as sharing records, referrals and information as children are adopted.

Medical and MH’s partnership is an example of teamwork in a system, in which each director, administrator, nurse, therapist, and secretary contributes to a shared goal of best practice and successful outcomes for the children and families we serve. These goals include supporting casework staff to ensure effective child protection practices that correctly identifies abuse and neglect. Collaborating is a win-win situation—the more coordination of care and awareness of the physical and mental health symptoms in the context of the trauma and psychosocial stressors children in foster care experience, the better all departments are able at meeting the individual needs of the children and families in our care.
The Campus Industries Program began in 2011 and aims to educate, empower, inform and prepare our youth for the challenges of adulthood and provide them with the opportunity to develop core values, interests and vocational skills that will enable them to live fulfilling lives and become gainfully employed upon leaving Little Flower.

Two occupational opportunities have taken shape since the program began:

- The first is the chance for youth to learn landscaping and maintenance by working alongside the staff on the Wading River Campus. Little Flower is blessed to have dedicated long-term staff who maintain the grounds and roads surrounding the area. These gentlemen are pleased to have the opportunity to share their skills and talent with the youth who reside with us.
- The second opportunity stemmed from the growing interest in the culinary arts among our youth. The Campus Café was created to meet the demand and has become very popular with the students; the staff are excited to have a place to get a hot lunch or a healthy salad without leaving the campus.

The program has become an essential part of the curricula in Wading River and an integral part of the therapeutic approach established to give our kids the skills and tools they need to cope with life as they grow. The Café is treated as a real employment opportunity; as such, each interested child is required to fill out an employment application and complete an interview process. Positions are competitive and only the most qualified and prepared applicants are selected. Each participant is required to attend and pass a food safety course and must meet the standards set throughout the program.

Positions in the Café range from food prep, cook, waiter, bus boy or girl, and maître de and the youth experience every one throughout the session. Individual treatment goals are established for all who participate and are evaluated throughout the program. In addition to the qualifications needed to perform the duties of the position being sought, each participant must meet or exceed the goals established by their treatment team.

The Campus Café provides lunch throughout the year to our Wading River staff, guests and for meetings with vendors, donors, volunteers and others. During the summer and fall months much of what is offered is harvested by the youth from Little Flower’s Campus Garden that is developed, planted and maintained by youth in the Garden Club. There is a real sense of alliance between the two groups in showcasing their produce and the end result.
Zarina’s Journey

The Bridges to Health (B2H) program at Little Flower aims to maintain stability for children so that they may reach a permanent solution, whether the end result is to return home with their parent, stay with their foster parent, move to a group home or create a new family through adoption. Zarina’s story proves that the B2H model works.

Zarina entered the foster care system at age 16 after having the courage to run away from an abusive household. For three years she searched for a permanent home moving from one foster home to another. Thanks to discovering a shared love for Zumba with her B2H caseworker, Zarina is starting to lead a healthier lifestyle and has gained much needed confidence. She has found stability in her current foster home and although she continues to have feelings of depression and post-traumatic stress, she is gaining the tools necessary to overcome her obstacles and become her own best advocate.

Within the past year Zarina has completed her General Equivalency Diploma (GED), enrolled into Suffolk Community College and is starting her second semester with a B average, all while working at a local retail store and getting her driver’s permit. Zarina has an avid love of writing about her experience in foster care and how she has overcome many of the challenges she has faced while in the system. Her writing has received several awards and a much appreciated grant through Nassau County Department of Social Services towards her school tuition. Zarina is a true role model!

Putting Education First

Well-equipped and prepared students tend to do better in school and have better attendance records. Having the right tools and not having to worry about acquiring them can have a positive impact on the school year, especially for kids in foster care.

Little Flower is very fortunate to have the support of donors who also believe in ensuring that children in need have the ability to excel in school! The generous support of The Prescott Fund for Children and Youth helped to purchase textbooks for youth in college and has led to the success of the Essentials for Education Program, which allowed us to send kids of all ages back to school prepared to tackle another year!

Our young adults aging out of foster care and going beyond high school are more vulnerable to the pressures of pursuing a higher education than others. With the support of donors like Lynn Macrone, our young adults can achieve the dream of attending college with a scholarship from Little Flower. These moneys are not restricted and can be used to cover the costs of attending a post-secondary institution such as tuition, housing, transportation, textbooks and other related supplies. Over the past two years, we are excited that 32 former foster children received scholarships and attended college.

Vincent (Vinnie) D. Cullen, of East Setauket, joined the Little Flower Board in 1999 and ever since was a dominant and dedicated figure for the organization. Vinnie is a graduate of Chaminade High School and received a Bachelor of Business Administration Degree from Dowling College. He then went onto to start an accounting firm, Cullen & Danowski, LLP in Port Jefferson Station and was an Accounting adjunct professor at Stony Brook University for five years.

In addition to his work with Little Flower, Vinnie was a member of several other professional and service organizations including Suffolk County Boy Scouts Council Board of Trustees (Member), NYS Society of CPAs Suffolk Chapter (Past President), NYS Society of CPAs Public School Accounting Committee, NYS School Board's Association, NYC Council of School Superintendents and NYS Association of School Business Officials.

In recognition for his volunteer efforts, Vinnie is a past recipient of the Stony Brook Soccer Club "Volunteer of the Year Award" and the Suffolk County Boy Scouts Council "Silver Beaver Award."

In 2011, Vinnie was diagnosed with ALS (Lou Gehrig's Disease) which led to the creation of the ALS Walk team “Cullen's Crusaders”—the largest walk team in the country and the largest the ALS Association ever had. The team rose over $130,000 and they continue to this day to honor Vinnie and raise awareness about ALS.

On May 8, 2013 Little Flower presented Vinnie with the inaugural Msgr. John T. Fagan Service Award for his devotion and care to the children we serve. Unable to physically attend the event, Vinnie watched the ceremony from his hospital bed and the very next day the world said good bye to Vincent D. Cullen.

Vinnie will be missed and his legacy to Little Flower will never be forgotten!

Additional Highlights and Accomplishments

• Students from the Inner Lights Program in Wading River attended and competed in the Pal-O-Mine Horse Show, with one student taking first place!

• Students from the Nutritional program at Columbia University led nutrition workshops for the LGBTQ Teen Group in Brooklyn and Queens

• Shannon O. and Barbara S., students in the Culinary Arts Program on the Wading River Campus, received their ServeSafe Certification!
Our Donors

Amazed! Inspired! Thankful! Your generosity allows Little Flower to continue our mission of helping children, families and developmentally disabled adults in need. We could not do this without your support and hope that you take great pride in the important difference your support makes in the lives of those we serve!

Sunday, August 12th board member Robert Griffith and his wife Tara hosted a Benefactor Mass at their home, celebrating mass and Little Flower. Ron Gholson, an alumnus of Little Flower attended with his family and reminded everyone just how much our donors impact the Little Flower community!

September 20, 2012, The Cullen Family and King Kullen Grocery Co. held the 30th James A. Cullen Memorial Golf Outing in support of Little Flower. James, pictured with Sally Murray and Little Flower Board Member Tom Cullen, currently part of the B2H Program, attended with his foster mother and spoke to the audience about his experiences.

Little Flower is proud to have five Sisters of the Holy Family of Nazareth living on Wading River with three of those Sisters in active ministry at the agency.

Sister Michelle Bremer, CSFN
Sister Doris Marie Deane, CSFN
Sister Madeline Kanich, CSFN
Sister Agnese Palczynski, CSFN
Sister Rita Wasilewski, CSFN
How You Can Turn Caring Into Action

Would you like to get involved with Little Flower or just want to learn more about what we do?

Here are some the ways you can help:

Visit our Website: www.littleflowerny.org It’s a fast and easy way to make an online donation!

Host a Toy Drive:
We are always in need of toys and gifts for the youth in our care. Whether it’s Christmas, birthdays or milestones like graduation, gift cards and new unopened electronic devices, CD’s, DVD’s and other items are always appreciated!

Back to School Drive:
You can help provide a child with a backpack filled with the essential items (notebooks, pens, pencils, flash drives, etc.) needed for a successful year!

Stock and Real Estate Gifts:
You can make a lasting contribution and receive tax benefits such as charitable income tax deductions and capital gains tax savings by donating appreciated assets.

Leave a Legacy:
One of the easiest ways to support Little Flower and our mission is to make a bequest in a Will or through the designation of Little Flower as a beneficiary of an insurance policy, IRA, 401 (k), 403 (b) or other qualified pension plan.

If you already named Little Flower as a beneficiary, please let us know so that we may have the opportunity to thank you.

Matching Gifts:
Many companies offer matching gift programs to encourage employees to contribute to charitable organizations. Some even provide matching funds to support employee volunteer hours! Most of these programs match contributions dollar to dollar and some even triple the amount of the gift!
Check with your company to see if it offers a matching gift program that will match your gift or your volunteer hours to Little Flower. If a program isn’t offered, ask to start one!

Workplace Giving:
Little Flower participates in the Combined Federal Campaign and other payroll deduction campaigns, including United Way. You may designate Little Flower on your corporate payroll deduction form.

Volunteer:
We rely on the generous donation of time from the many individuals and corporations who help us. We need volunteers for many activities at all of our various locations. Call 631-929-6200 ext. 1171 to find out how you can volunteer with Little Flower.

If you would like further information on how to get involved with Little Flower, please contact Maureen Fox, Director of Development at: 718-875-3500 ext. 5040.
Little Flower Children and Family Services of New York has provided quality programs and services to children and families in crisis and developmentally disabled adults in New York City and across Long Island for over 80 years. As one of the largest child care agencies in New York State, Little Flower maintains a strong history of responding to societal needs to ensure the safety and well-being of those in our care.
