ABOUT LITTLE FLOWER

Little Flower Children and Family Services of New York is a nationally-accredited human services nonprofit providing trauma-informed care to support the well-being of children, youth, families, and adults with disabilities across New York City and Long Island since 1929.

OUR PROGRAMS

Residential Treatment Center

The Residential Treatment Center (RTC) on our Wading River campus is a therapeutic community serving children and youth from New York City and Long Island. The RTC delivers holistic care and support to help young people meet their socioemotional, behavioral, health and educational needs.

Family Foster Care Program

Our foster care program, based at our Brooklyn flagship office, recruits and supports kinship and foster families who provide nurturing homes for children separated from their families of origin. The program offers training and ongoing therapeutic and support services to foster parents before, during and after placement.

Medical & Mental Health

Little Flower leads the state in providing innovative, evidence-based and trauma-informed services supporting children's physical, behavioral and socioemotional well-being.

Family Care

Family Care provides stable, caring homes in which adults with intellectual and developmental disabilities live in a loving family that supports, guides, and spends quality time with them. Little Flower supports and oversees this care.
